

STAGE 3: AMAZON SCRAPPING

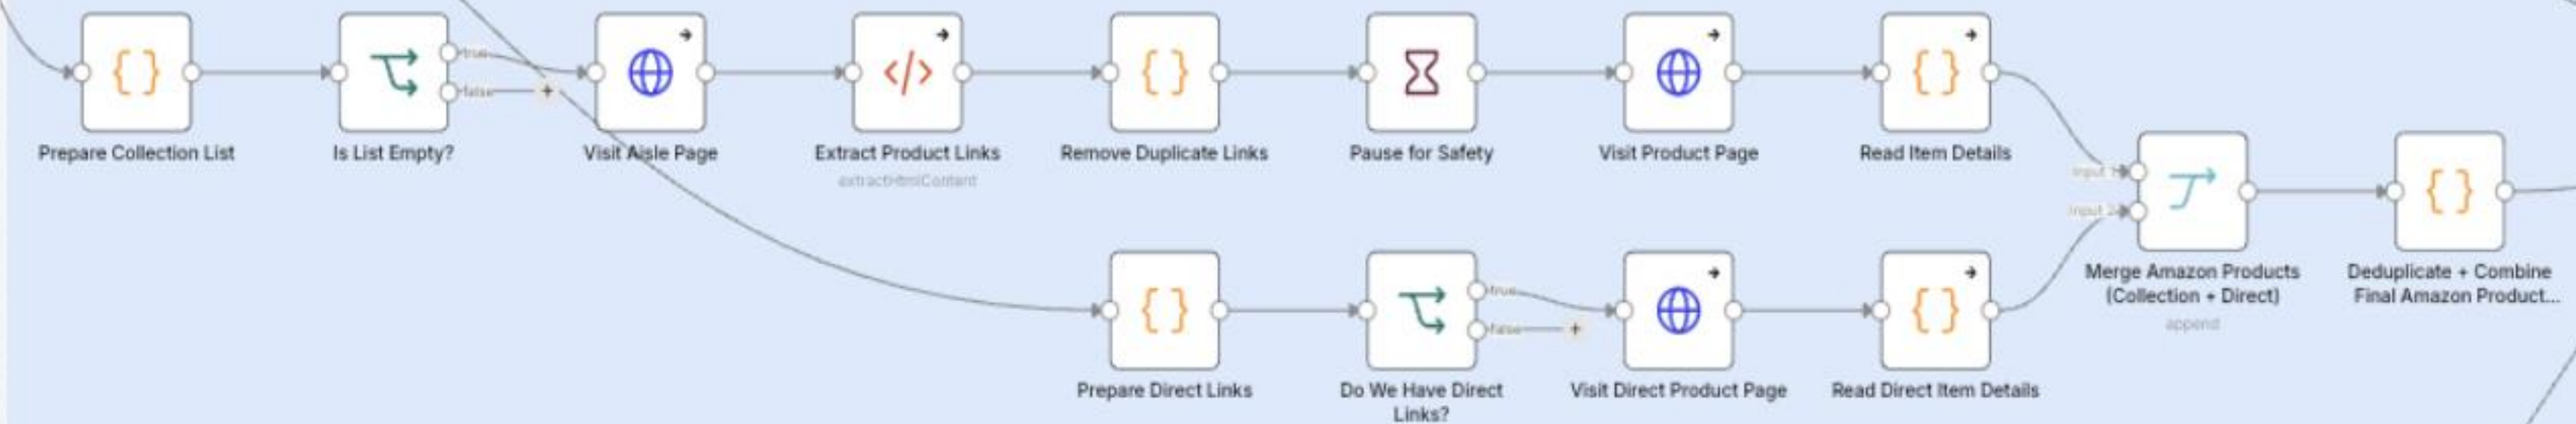

Two paths:

1. Collection URLs → Extract product links → Scrape each
2. Direct product URLs → Scrape directly

Uses Cheerio to parse:

- Product name, price, brand
- Details, description, specs
- Pattern, size, rating

Includes 1.5s wait between requests.

Stage 4 Walmart Scrapping

Stage 5: Analysis

Using LLMs to analyze competitor data and generate a detailed analysis report
